Summary

I am a passionate and growth-oriented web developer with an experience on the frontend and backend, constantly seeking new challenges, researching tools and ways to improve current skills. My fields of expertise are the following:

- JavaScript (Angular, Backbone, jQuery, Node.js), PHP (Zend, Laravel, CodeIgniter), HTML5, CSS3 (LESS, Sass), MySQL/NoSQL
- Modern web development techniques such as unit and functional testing, continuous integration, progressive enhancement, responsive web design
- Strong focus on the code performance, re-usability and cross-browser compatibility
- Focus on the pixel-perfection, knowledge of UX/UI design methodologies and workflow
- Working in agile development environments and as part of multidisciplinary teams
