Summary

I am a passionate and growth-oriented web developer with over 7 years experience in software engineering, constantly seeking new challenges, researching tools and ways to improve current skills. My fields of expertise are the following:

- JavaScript (React, React Native, Angular, Backbone, Knockout, Node.js), PHP (Zend, Laravel, CodeIgniter), HTML5, CSS3 (LESS, Sass), SQL/NoSQL
- Modern web development techniques such as unit and functional testing, continuous integration, progressive enhancement, responsive web design
- Strong focus on the code performance, re-usability and cross-browser compatibility
- Focus on the pixel-perfection, broad knowledge of UX/UI design methodologies and workflow
- Working in agile development environments (Scrum/Kanban) and as part of multidisciplinary teams

Experience
